# 1. General

- ► Always read the safety instructions (700.403.347).

  To avoid possible damage, these safety instructions must be read, understood and followed.
- ► Manuals are subject to change, scan the QR code to retrieve current information.

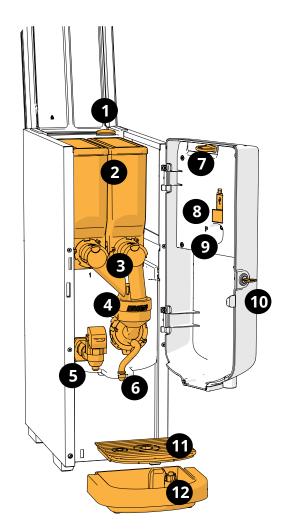

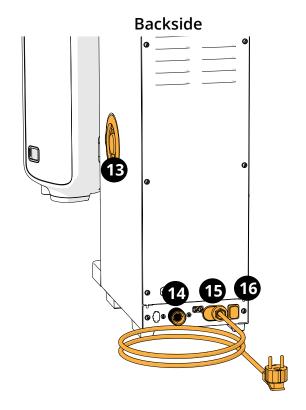

# 2. Parts and functions

### 2.1 Parts

- 1. descaling cap
- 2. canisters
- 3. canister outlet
- 4. mixing system
- 5. hot water tap
- 6. beverage outlet
- 7. safety key
- 8. USB connection

- 9. programming button
- 10. door-key
- 11. drip tray plate
- 12. drip tray with float
- 13. ventilation system
- 14. water inlet
- 15. electrical connection
- 16. on/off switch

# 2.2 Optional water filter

To enjoy your beverages even more and improve the performance of your Bolero, we recommend installing a water softener filter. You can request one from Bravilor Bonamat BV.

► When you install a water softener filter you must notify the Bolero of its presence as described in §6.1.3 on p.27.

### 2.3 Controles

The basic buttons are described underneath. Overall the Bolero reacts after the release when a button is pressed.

▶ If no button is pressed within 5 minutes, the Bolero returns to the beverage selection screen.

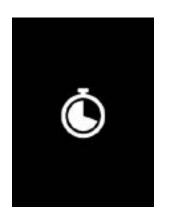

controls	function		
<b>&lt; &gt;</b>	navigate between screens

- ► The beverages, recipes and settings used are only examples.

# 3. Start up

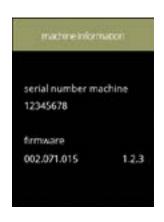

▶ The Bolero can display different screens, depending on the model of the Bolero.

Initialisation.

wait for the next screen

За

Machine information.

- after a few seconds the next screen will appear depending the status of the machine:
  - ► First install already completed, the next screen is <u>3k</u>.

3b

First install, select your language:

- press or or to scroll through the available languages
- press **v** to confirm
  - ► The installation menu is only shown when the machine is switched on for the first time or is switched on after the factory settings have been reset, see §6.3.14 on p.96.

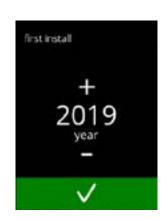

Read the safety book.

- press ☐ to go the previous screen
- press 

  to confirm

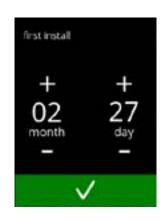

3d

Set the year:

- press **□** or **□** to set the current year
- press **v** to confirm

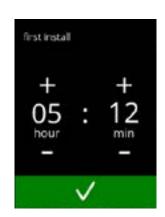

3e

Set the day and month:

- press 
  ☐ or ☐ to set the current day and month
- press **▼** to confirm

3f

# Set the time:

- press **■** or **■** to set the current the hour and minutes
- press **v** to confirm

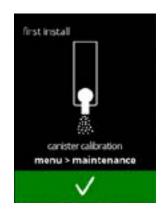

Information screen:

- fill the canisters with ingredients according to the instructions on the screen
- ▶ Only use ingredients that are suitable for vending machines.
- ► The screen depends on the configuration of the machine, see §8.3 on p.119.
- ► The values can be changed in the beverage menu, see §6.2.5 on p.68.

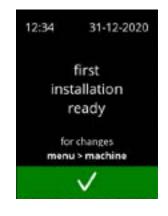

3h

Information screen:

- - ► Calibration is essential for a correct dosage of the ingredients and can be done in the maintenance menu, see §6.1.7 on p.36.

3i

Information screen:

- - ▶ The date, time and language can be changed in §6.3 on p.75.

**Bolero 21** coffee cafe au lait cappuccino

The machine is ready for use.

3m

# 4. Your beverage

If you press on name the beverage prepares immediately.

If you want to personalise the drink, select one of the icons in fig. 4.1a, then press the drink of your choice.

# 4.1 Personalise your beverage

► These settings are used in preparing this one beverage and are not saved.

# **Options**

Strength:

 press the beans (carousel) to select the beverage strength (to adjust see §6.2.7 on p.72)

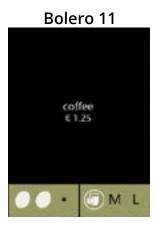

# Beverage size:

the letters (S=small / M=medium / L=large) represents the three steps in volume

• press the "letters" (carousel) to select the beverage cup size

4.1a

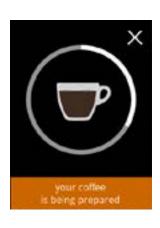

#### **Bolero 21**

coffee
cafe au lait
cappuccino

# Selecting a beverage:

touch the beverage of your choice

4.1b

# Preparing a beverage:

please wait

4.1c

# 4.2 Cancelling instant related beverages

When a beverage is selected, immediately a cancel button appears.

The cancel button **\Boxepsilon** may have a limited dimension but the dosing action can always be stopped wherever the screen is touched.

The cancel function is enabled by default and can only be turned off in §6.3.13 Connected devices on p.94.

When a beverage is cancelled, the mixer continues to run for a few seconds to clean the mixing system.

#### Cancel a beverage:

• touch anywhere on the screen to cancel the beverage

#### Information screen:

 this screen is displayed to indicate the beverage has been cancelled.

4.2b

# 4.3 Hot water tap

The Bolero comes in two versions, with and without a manual hot water tap. The separate tap provides hot water for tea or soup.

The hot water tap is intended for filling a cup with plain hot water. Wait a few seconds between drawing off hot water and selecting a new beverage so that the machine can refill itself. The hot water tap is not blocked if the water temperature is too low.

▶ It is not allowed to tap hot water while preparing a drink, in order to prevent clogging of the mixing system.

# 4.4 Screensaver

If the screen has not been touched for a certain time, the screensaver starts. The screensaver timer can be set (time) and disabled  $\S6.3.5$  on p.80.

#### Screensaver:

 touch anywhere on the screen to return to the beverage selection screen

4.4a

# 4.5 Energy saving mode (ECO)

The device is equipped with an energy saving mode (ECO) this is used to save energy consumption when the machine is not used (e.g. overnight or during a weekend).

When energy-saving mode becomes active, the following actions are performed:

water level control disabledboiler heating disabled

backlight display set to low percentage.

• fan disabled

The energy control consist out of a (customised) screensaver with a symbol as semi transparent overlay.

The energy-saving mode has priority over the screensaver.

- touch anywhere on the screen to return to the beverage selection screen
- ▶ Depending on the switch-off time, it can take a few minutes before the machine is ready for use again.

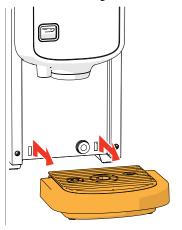

# 5. Cleaning

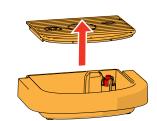

It is important that the Bolero is kept clean, what can be cleaned (period depending on pollution):

Daily	Weekly	Monthly
start rinsing programm for the mixing system,	drip tray	ventilation system
<u>§6.1.1 on p.17</u>	mixing system	canister(s)
	the outside	

- ▶ Never clean parts of the Bolero in the dishwasher, only if this is explicitly stated.
- ► Do not use any aggressive cleaning agents.

# 5.1 Weekly cleaning

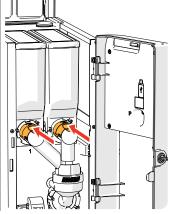

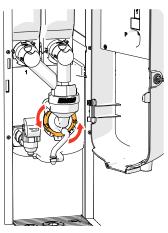

# Drip tray:

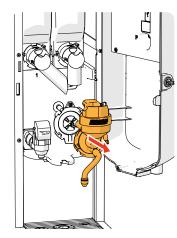

- 1. pull the complete drip tray forward
- 2. empty the drip tray
- 3. clean the drip tray (including grid), using *hot* soapy water
- 4. dry everything and place them back in place
- ► Check whether the "red float" is still in place

# Mixing system:

- 1. open the door and lid
- 2. close the "yellow" slider of the canister outlets

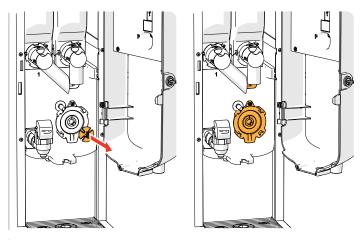

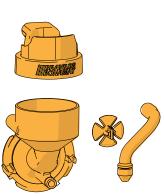

- 3. turn the fixation ring counter clockwise
- 4. remove the complete mixing system

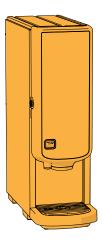

- 5. remove the mixer
- 6. clean the indicated parts, using a damp cloth

- 7. clean the removed parts (dishwasher proof (<65°C))
- 8. remount the mixing system in reverse order
- ▶ Pay attention to the flat sides of the shaft and the mixer.
- 9. reconnect the hose to the mixing system and the outlet
- 10. replace the ingredient canister(s) in the correct position
- 11. open the "yellow" slider of the canister(s) 12. close the lid and door
- ▶ To prevent clogging of ingredient that has fallen into the mixing system, it is recommended to rinse the machine after the daily cleaning procedure, see §6.1.1 on p.17.

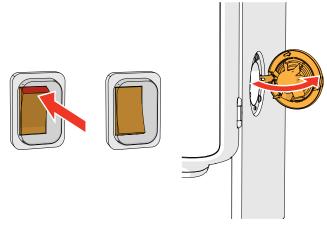

#### The outside:

- 1. switch off the machine (due to the touch
- 2. clean the outside with a damp cloth
- 3. switch the machine back on

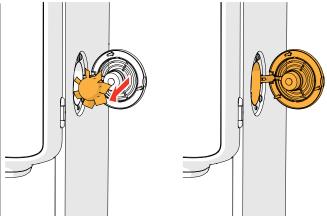

# 5.2 Monthly cleaning

# Ventilation system:

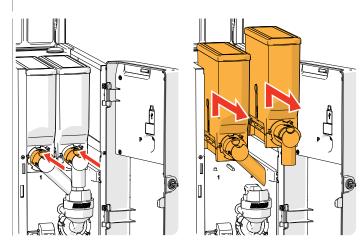

- 1. switch off the machine
- 2. open the fan to the back

- 3. carefully pull the rotor of the motor
- 4. clean the fan housing and grid, using a damp cloth

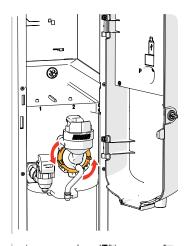

- 5. clean the fan rotor, using hot soapy water6. dry everything and place the rotor back in place

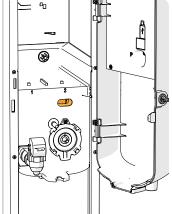

- 7. open the door and lid
- 8. close the canister outlet by moving the "yellow" slider to the back
- 9. take the canister(s) out of the machine

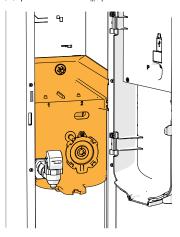

- 10. turn the fixation ring counter-clockwise
- 11. remove the complete mixing system

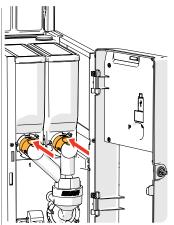

- 12. clean the opening of the fan duct
  - ► Do **not** use water to prevent the ingredients from clumping

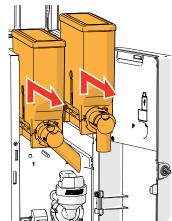

- 13. clean the inside of the machine with a damp
- 14. replace the canister(s) in its/their correct
- 15. open the "yellow" slider of the canister(s)16. close the lid and door

▶ To prevent clogging of ingredient that has fallen into the mixing system, it is recommended to rinse the machine after the daily cleaning procedure, see §6.1.1 on p.17.

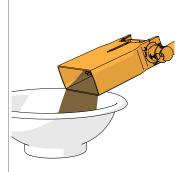

#### Canister(s):

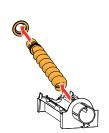

- 1. open the door and lid
- 2. close the "yellow" slider of the canister outlet(s)
- 3. take the canister(s) out of the machine

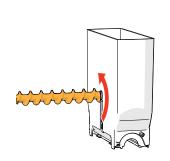

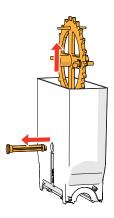

- 4. pour the ingredients in a dry bowl
- 5. unlink the outlet from the canister

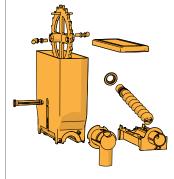

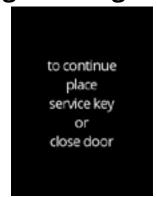

- 7. clean the canister and outlet with a brush
- ► Do **not** use water to prevent the ingredients from clumping and clogging the canister.
- 8. refill the canister(s)
- 9. replace the canister(s) in its/their correct position
- 10. open the "yellow" slider of the canister(s)
- 11. close the lid and door

► To prevent clogging of ingredient that has fallen into the mixing system, it is recommended to rinse the machine after the daily cleaning procedure, see §6.1.1 on p.17.

# 6. Programming menu

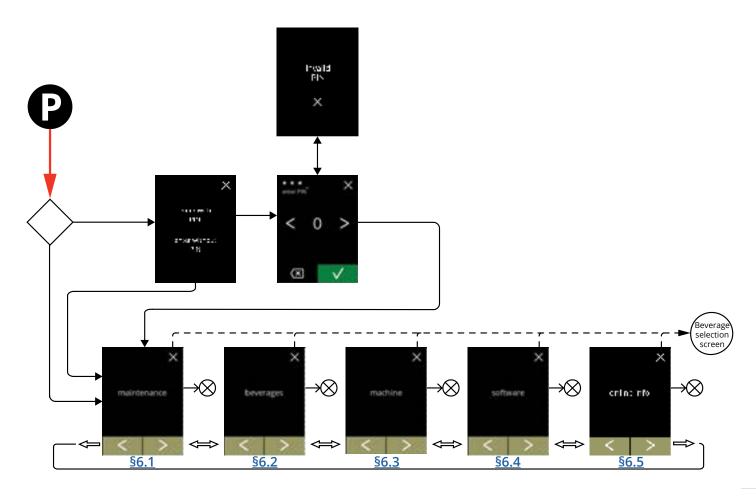

To access the programming menu:

- open the door of the Bolero this message appears on the screen
- insert the service key (no. 7 on p.1)
- press the programming button (no. 9 on p.1)

► All screen shots in this manual are in English.

In the programming menu select one of the available options:

- press ✓ or ≥ to select the next option of the "programming menu"
- press the "text area" to select the next level for that menu
- press **\texts** to exit the programming menu and return to the beverage selection menu.
  - If a PIN code is not set, all menu items are available.
    If a PIN code is set, the user can enter the menu with or without a PIN code.
    The menu items secured by PIN codes will be greyed out, see also §8.4 on p.120.
  - ▶ If no button is pressed within 5 minutes, the Bolero returns to the beverage selection screen.

# 6.1 Maintenance menu

The maintenance menu contains all features that are available regarding the maintenance of the vending machine.

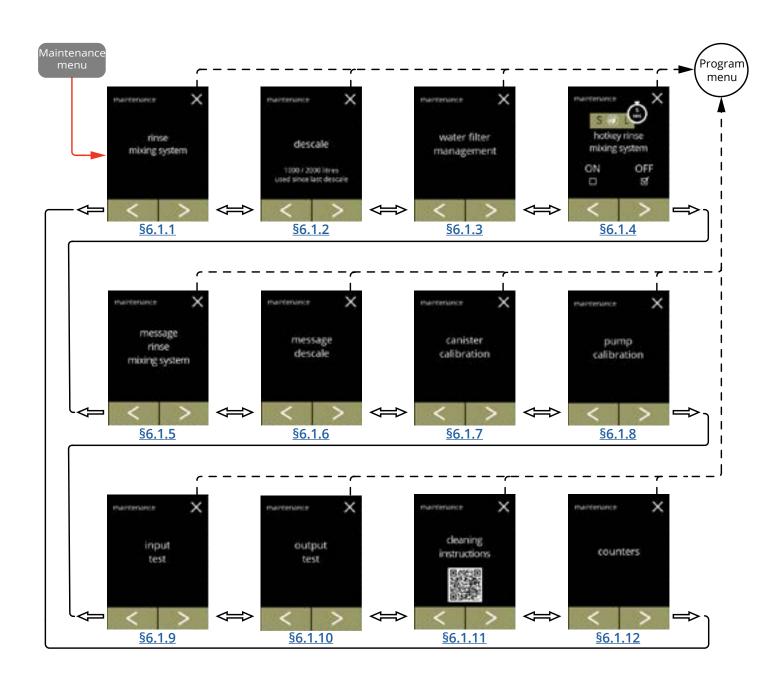

Select one of the available options:

- press 

  or 

  to choose the next option of the maintenance menu
- press the "text area" to select the next level for that menu
- press 

  to go back to chapter 6. Programming menu on p.15.

# 6.1.1 Rinse the mixing system

To maintain the correct functioning of the Bolero, the mixing system must be rinsed dayly and cleaned weekly, see §5.1 on p.10.

This procedure rinses the mixing systems and the outlet hoses.

The mixing system can also be rinsed without opening the door using a 'hotkey'. To set this function, see  $\S6.1.4$  on p.30.

### **Necessities:**

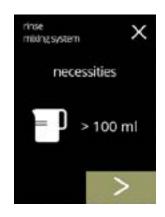

container (0,5 litre)

### The rinsing procedure:

- press "rinse mixing system" to select
- press **<** or **>** to scroll through the maintenance menu

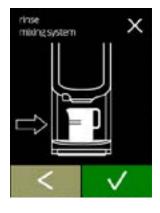

6.1.1

# Information screen:

- make sure all necessities are available
- press ≥ to go to the next screen

6.1.1a

#### Information screen:

- place an empty container under the beverage outlet
- press **v** to confirm
- press 

   to go to the previous screen

6.1.1b

# Start rinsing:

• press start to begin the rinsing

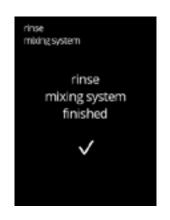

6.1.1c

# Rinsing:

- wait until the process is finished
  - ► Hot water from the outlet
- press cancel to abort

6.1.1d

# Information screens:

 screen <u>6.1.1</u> is displayed after a few seconds

6.1.1e

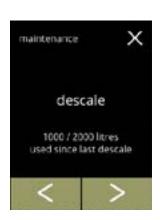

#### 6.1.2 Descale

If the water hardness is set correctly for the descaling signal (see  $\underline{\$6.1.6}$  on  $\underline{p.33}$ ), descaling the Bolero will remove all limescale. This will extend the life-cycle of the Bolero.

#### **Necessities:**

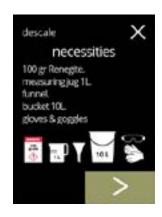

- descale agent (recommended: "RENEGITE", our proven descaling agent)
- measuring jug (1 litre)
- funnel
- bucket (10 litre)
- average time: ± 40 minutes
- safety gloves and goggles
  - ► The descaling process must not be interrupted after screen <u>6.1.2c</u>.

The descaling procedure:

- press "descale" to select
- press **<** or **>** to scroll through the maintenance menu

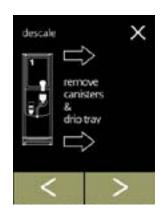

6.1.2

#### Preparation:

- make sure all necessities are available

6.1.2a

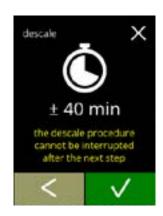

#### Preparation:

- follow the instructions on the screen
- press 

  to go to the next screen

6.1.2b

#### Information screen:

- average time
- press **v** to confirm and continue the descaling procedure
- - ► The descaling process cannot be interrupted after this screen.

6.1.2c

#### Drain the machine:

- follow the instructions on the screen
  - ► Wear protecting gloves, hot water.
- when the water flows out of the hose, the following screen is displayed

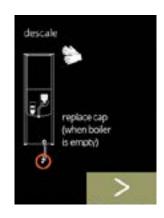

6.1.2d

# Draining the machine:

- time indication needed for draining
- when the boiler is empty, the following screen is displayed

6.1.2e

# Close the hose:

- follow the instructions on the screen
- press 

  to go to the next screen

6.1.2f

### Prepare the descaling solution:

- follow the instructions on the screen
  - ► Wear safety gloves and safety goggles.
  - ► The descaling agent must be dissolved completely.
- press 
   to go to the next screen

6.1.2g

# Preparation:

- follow the instructions on the screen
- - ► Place the bucket also under **all** the outlets (including the hot water outlet).

6.1.2h

### Preparation:

- follow the instructions on the screen
- press ≥ to go to the next screen
- ► Wear safety gloves and safety goggles.
- ▶ Do not leave the machine unattended while a descaling solution is in the machine.

6.1.2i

# Start descaling:

press start to begin the descaling

# Descaling:

- ► Make sure that the bucket is placed under the outlets, in the next step, water with descaling solution will come out of all the outlets (including the hot water outlet).
- press 

  to go to the next screen

- press **▼** to confirm every things has been restored

6.1.2aa

# Information screen:

• screen <u>6.1.2</u> is displayed after a few seconds

6.1.2ab

Warning screen interrupted descaling process:

• press resume to continue the procedure where it was interrupted and to finish the descaling process

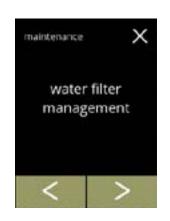

6.1.2ac

# 6.1.3 Water filter management

If a water filter is installed, replaced or removed must be confirmed in the software so that the counter is updated. A water filter lessens lime-scale deposits and reduces impurities in the water. The Bolero also does not need to be descaled so often, see §8.1 on p.119. Additionally, it ensures a consistent quality of the hot beverage in both taste and aroma.

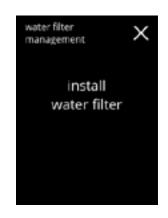

water filter settings	default	minimum	maximum
capacity (litre)	OFF	100	10000
months shelf life	UFF	1	24

Install, replace or remove the water filter:

- press "water filter management" to select
  - » water filter already installed go to screen 6.1.3c
  - » water filter **not yet** installed, go to the next screen
- press **I** or **D** to scroll through the maintenance menu

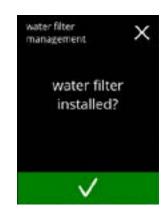

6.1.3

#### Installing:

- press "install water filter" to select
- ► Read the instructions that come with the filter.

6.1.3a

### Confirmation screen:

- install the water filter (conform its instructions)
- press ✓ to confirm and go to screen 6.1.3f

6.1.3b

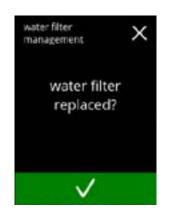

# Replacing:

- press "replace water filter" to select
- press 
   ✓ or 
   ✓ to scroll through the water filter sub-menu
   water filter settings (6.1.3e)
  - » uninstall water filter (6.1.3h)

6.1.3c

Replace the water filter (according to its own instructions).

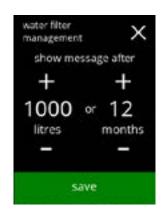

6.1.3d

# Set notification:

- press "water filter settings" to select and go to the next screen
- press **I** or **D** to scroll through the water filter sub-menu » uninstall water filter (6.1.3h)
  - » replace water filter (6.1.3c)

6.1.3e

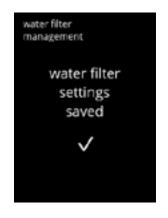

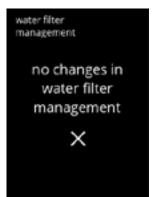

Set the 'replace water filter' message:

- ► When the water filter is first installed, both values start at 0 and must be changed before save is displayed.
- ► When replacing a water filter, the previous values are set and save is displayed immediately.
- adjust the settings
- ► Both values are required
- press save to confirm

6.1.3f

#### Information screens:

screen <u>6.1.3</u> is displayed after a few seconds

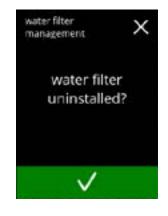

### 6.1.3g

# Permanent removal:

- press "uninstall water filter" to select and go to the next screen
- press **≤** or **≥** to scroll through the water filter sub-menu
  - » replace water filter (6.1.3c)
  - » water filter settings (6.1.3e)

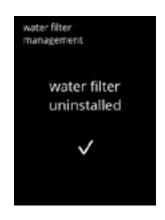

#### 6.1.3h

# Uninstall the water filter:

- physically remove the water filter
- press save to confirm

#### 6.1.3i

#### Information screen:

• screen <u>6.1.3</u> is displayed after a few seconds

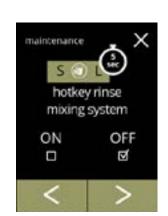

# 6.1.4 Hot-key rinsing function

To prevent clogging, it is necessary to rinse the mixing system several times a day. For this purpose, it is possible to set up a so-called hot-key on the screen. In this menu it is possible to put the hot-key rinsing function active or inactive in the beverage selection screen.

# Default: OFF

► To use the hot-key rinsing function press and hold for five seconds the S M L button on the beverage selection screen, the rinsing of the mixing system starts immediately.

Availability of hot-key:

- press "ON" to make the hot-key visible
- press **I** or **D** to scroll through the maintenance menu

6.1.4

Setting the hot-key:

- press save to confirm
  - ► Save is only active if something has changed.

6.1.4a

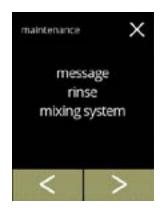

# 6.1.5 Cleaning management

In this menu, it is possible to set a time for a cup counter to display a warning before rinsing the machine.

The warning can always be cancelled without rinsing the machine.

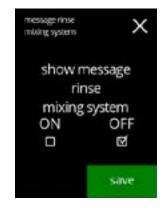

Default: ON

### Cleaning management

- press "message rinse mixing system" to select
- press **<** or **>** to scroll through the maintenance menu

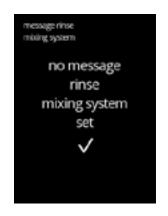

6.1.5

# Setting rinse message:

- press "ON" or "OFF" to set the message
  - » select OFF and save:
    go to the next screen
  - » select ON and **▼**:
    next screen is 6.1.5c

6.1.5a

#### Information screen:

• screen <u>6.1.5</u> is displayed after a few seconds

6.1.5b

#### Set day or time:

- press 
   • or 
   • to set the number of cups or days after which the warning should pop-up
- press 

  to confirm and go to the next screen
- press 

  to go back to screen 6.1.5a

6.1.5c

show message directly after 200 cuos or 90 days

YES NO

#### Information screens:

 screen <u>6.1.5</u> is displayed after a few seconds

6.1.5f

## 6.1.6 Descale management

It is important to know the correct hardness of the water at the location where the Bolero is used (for setting the descaling signal).

If necessary, ask the local water company for the hardness of the water supplied or measure the hardness of the water supplied on site with a water hardness tester (according to the corresponding instructions).

## Default: ON (with average water hardness)

See also §8.1 Filter information and water hardness on p.119.

## Descale management

- press "descale management" to confirm
- press **<** or **>** to scroll through the maintenance menu

6.1.6

#### Descale message:

- press "ON" or "OFF" to set the message
  - » select OFF and save: go to the next screen
  - » select ON and **▼**: go to screen <u>6.1.6c</u>

6.1.6a

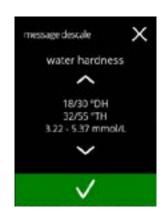

#### Information screen:

• screen 6.1.6 is displayed after a few seconds

6.1.6b

#### Water hardness:

- press 
   or 
   to set the water hardness
  - When a water filter is used, the message can be delayed, select 0-4 °DH.
    - » select a value between 4/8 and 18/30 °DH; press 

      to confirm and go to screen 6.1.6g

6.1.6c

#### Volume override:

- press save to confirm and go to screen 6.1.6h
- press override to adjust the volume for the notification and go to the next screen
  - ▶ When a water filter is used the volume can be adjusted.

6.1.6d

## Increase maximum standard volume:

- press 
   or 
   to set the volume
- press save to confirm and go to the next screen
- press default to go to the previous screen
  - ► The override volume is shown in orange and can be set from 2100 till 9999 litre.
  - ► If used incorrectly, the descale message can be delayed for too long, allowing lime-scale to build up.

6.1.6e

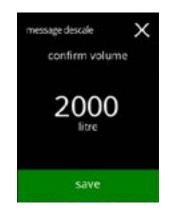

#### Information screen:

• screen <u>6.1.6</u> is displayed after a few seconds

6.1.6f

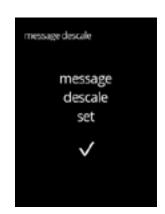

Standard volumes/water hardness:

• press save to confirm and go to the next screen

6.1.6g

Information screen:
• screen <u>6.1.6</u> is displayed after a few seconds

6.1.6h

#### 6.1.7 Canister calibration

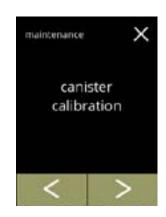

In this menu the canisters can be calibrated.

The calibration determines the quantity of the ingredient when a canister motor runs at a defined speed for a defined time.

When finished the measured weight must be filled in.

#### **Necessities:**

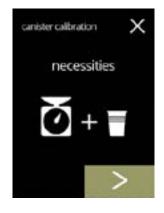

- · empty cup
- precision scale

Canister calibration procedure:

- press "canister calibration" to confirm
- press **<** or **>** to scroll through the maintenance menu

6.1.7

Make sure all necessities are available.

press 

to go to the next screen

6.1.7a

#### Canister selection:

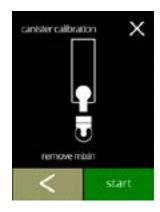

- ► The number of canisters may vary per configuration, see §8.3 on p.119.
- press **v** to confirm and go to the next screen
- press 

  to go to the next screen
- press 

   to go to the previous screen

6.1.7b

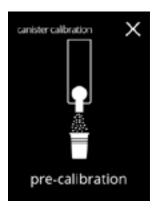

#### Information screen:

- turn the fixation ring counter-clockwise
- remove the mixing system
- put an *empty dry* cup under the canister outlet
- press start to begin the pre-calibration dosing

6.1.7c

## Pre-calibration dosing:

- · wait for the next screen
- ► The canister motor will turn to fill up the outlet.

6.1.7d

## Pre-calibration dosing:

- throw the collected ingredient back into the canister
- press 

  to confirm and go to the next screen
- press 

  to go back to screen 6.1.7c

6.1.7e

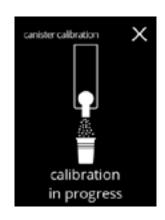

## Actual calibration:

- put a *empty dry* cup on the precision scale to calibrate
- put the cup under the canister outlet
- press start to begin the dosing

6.1.7f

## Dosing:

- wait for the next screen
  - ► The canister motor starts and stops several times.

6.1.7g

## Weighing the ingredient:

- put the cup with ingredient on the balance
- press **■** or **■** to enter the weight on the screen
- press save to confirm and go to the next screen
- press 

  to go back to screen 6.1.7e

6.1.7h

## Calibration completed:

- put the mixing system back in place
- press **▼** to confirm

6.1.7i

## Information screens:

 screen <u>6.1.7</u> is displayed after a few seconds

6.1.7j

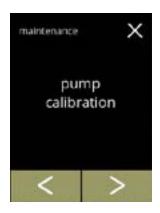

## 6.1.8 Pump calibration

In this menu the pump can be calibrated.

With calibration the volume of the water is determined for a defined flow and time. When finished the measured volume must be filled in.

#### **Necessities:**

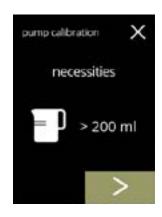

measuring jug (minimal 200 ml)

Pump calibration procedure:

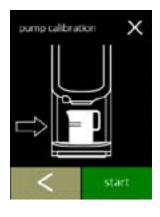

- press "pump calibration" to confirm
- press **☑** or **☑** to scroll through the maintenance menu

6.1.8

Make sure all necessities are available.

6.1.8a

#### Information screen:

- put a *empty* measuring jug under beverage outlet
- press start to begin the dosing
- ▶ Please note the machine dispenses hot water.
- press 
   ✓ to go to the previous screen

6.1.8b

## Warning screen:

- ► The warning screen is displayed for a few seconds.
- · wait for the next screen

6.1.8c

Hot water dosing in progress:

- · wait for the next screen
  - ► Hot water from outlet.

6.1.8d

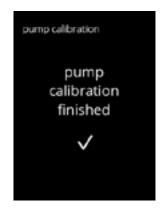

#### Determine volume:

- read off the amount of water dosed
- press **■** or **■** to enter the volume on the screen
- press save to confirm and go to the next screen
- press 

  to go back to screen 6.1.8b

6.1.8e

#### Information screens:

 screen <u>6.1.8</u> is displayed after a few seconds

6.1.8f

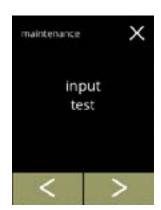

# 6.1.9 Input test

For a proper fault analysis a diagnosis should be made first. An input test can be performed for the following components:

touchscreen

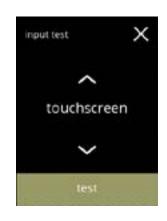

- float
- cup sensor (optional)
- door switch / safety key
- low pressure pump
- NTC1 (low position) and NTC2 (high position)
- ▶ Despite the fact that sufficient safety measures are taken working with the systems may entail risks. Our starting point is that people activating this menu are sufficiently skilled and therefore able to properly assess these risks with respect to safety.

## Input test

- press "input test" to confirm
- press **<** or **>** to scroll through the maintenance menu

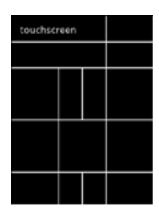

6.1.9

# Select an input test:

- press test to go to the next screen

6.1.9a

#### Touch screen:

- touch the areas, they turn green if the button works (touch it again and it turns black again)
- ▶ If not all blocks are tested within 20 seconds, the machine returns to the previous screen. Next time, the previously tested blocks are still green. This screen will not start a full black screen until all blocks are green (OK tested).

6.1.9b

## Cup sensor:

- hold your hand in front of the sensor to be tested, this results in false/true
- - ▶ If cup detection is not installed this screen is not visible.

6.1.9c

## Door switch/safety key:

- remove the service key and replace it resulting in false/true
- press or or to select another component

6.1.9d

## Float:

- shows current state on screen (true=wet or false=dry)

6.1.9e

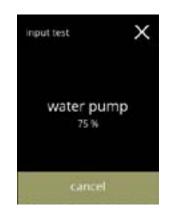

## Low pressure pump:

- shows current speed of the motor on screen
- press test to go to the next screen

6.1.9f

Test the low pressure pump:

- the low pressure pump is turned on for 10 seconds and then stops.
- ► The motor runs slowly, so no water will come out of the outlet.
- press cancel to go back to previous screen

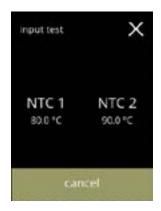

6.1.9i

#### NTC sensors:

- shows current temperature on screen
- press to go to the next screen

6.1.9g

## Test the NTC sensors:

- ► The heating element is on for 10 seconds, so the temperature on the screen should change.
- press cancel to go back to previous screen

6.1.9h

## 6.1.10 Output test

For a proper fault analysis a diagnoses should be made first.

The output test gives an overview of all parts able to deliver signals (electrical components). Components that can be tested:

- buzzer
- mixer motor
- heating element
- fan motor

- canister(s)
- low pressure pump
- magnetic inlet valve
- ▶ Despite the fact that sufficient safety measures are taken working with the systems may entail risks. Our starting point is that people activating this menu are sufficiently skilled and therefore able to properly assess these risks with respect to safety.

#### Output test

- press "output test" to confirm
  - ► There are two options for testing:
    - » pulse: the action is executed as long as the button is pressed.
  - » cycle: the action is executed for 10 seconds and press on cancel to interrupt.
- press 
   ✓ or 
   ✓ to scroll through the maintenance menu

6.1.10

## Buzzer test:

- press pulse, result: short 'beep'
- press cycle, result: multiple short 'beeps'

6.1.10a

#### Canister motor test **Bolero 11**:

- remove the canister
- press pulse, result: the canister motor runs briefly at 20% speed
- press cycle, result: the canister motor runs at 20% speed for 10 seconds

6.1.10b

#### Canister motor test **Bolero 21**:

- press test to select a canister in the next screen

6.1.10c

#### Canister motor test Bolero 21:

- remove the canister(s)
- press pulse, result: the canister motor runs briefly at 20% speed
- press cycle, result: the canister motor runs at 20% speed for 10 seconds

6.1.10d

#### Mixer motor test:

- press pulse, result: the mixer motor runs briefly at full speed
- press cycle, result: the mixer motor runs at full speed for 10 seconds

6.1.10e

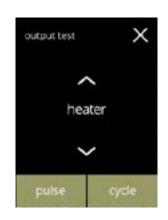

## Low pressure pump test:

- press pulse, result: the pump motor runs briefly
- press cycle, result: the pump motor runs for 10 seconds
  - ► The water will not reach the mixing system.

6.1.10f

#### Heating element test:

- press pulse, result: the heating element turns on for a moment
- press cycle, result: the heating element turns on for 10 seconds

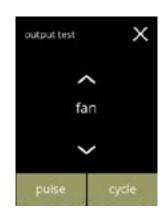

#### 6.1.10g

## Magnetic inlet valve test:

- press pulse, result: the valve opens for a moment
  - ➤ Do **not** perform the pulse test several times in a row, as this can lead to an overflow of the float tank, for this reason the cycle button is not accessible.

#### 6.1.10h

#### Fan motor test:

- press pulse, result: the fan motor runs briefly at full speed
- press cycle, result: the fan motor runs at full speed for 10 seconds

6.1.10i

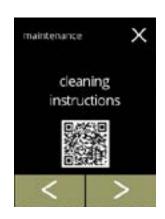

## **6.1.11 Cleaning instructions**

To maintain proper functioning, the Bolero must be cleaned regularly.

daily	weekly
drip tray	canister(s)
mixing system	ventilation system
the outside	the inside

- ► The cleaning instructions are also available as an animation by scanning the QR code in this menu.
- ► The manual cleaning intervals have been revised, see <u>chapter 5</u>. <u>Cleaning on p.10</u> for a detailed description.

## Cleaning instructions:

- press "cleaning instructions" to confirm
- press **<** or **>** to scroll through the maintenance menu

#### 6.1.11

## Daily cleaning instructions:

- press "clean daily" to go to the next screen
- press 

  or 
  to go to weekly cleaning (6.1.11e)

## 6.1.11a

## Cleaning the drip tray:

- follow the instructions on the screen
- press **I** or **D** to select another daily cleaning instruction

6.1.11b

## Cleaning the mixing systems:

- follow the instructions on the screen
- press 

  or 
  to select another daily cleaning instruction

#### 6.1.11c

## Cleaning the outside:

- follow the instructions on the screen
- press **<** or **>** to select another weekly cleaning instruction

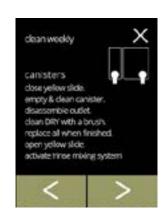

#### 6.1.11d

## Weekly cleaning instructions:

- press "clean weekly" to go to the next screen
- press ✓ or D to go to daily cleaning (6.1.11a)

#### 6.1.11e

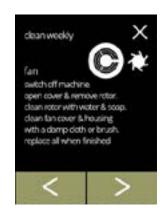

## Cleaning the canisters:

- follow the instructions on the screen
- press **I** or **D** to select another weekly cleaning instruction

6.1.11f

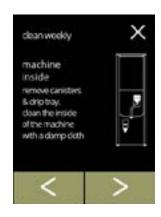

# Cleaning the fan:

- follow the instructions on the screen
- press **<** or **>** to select another weekly cleaning instruction

## 6.1.11g

# Cleaning the inside:

- follow the instructions on the screen
- press **<** or **>** to select another weekly cleaning instruction

# 6.1.11h

#### 6.1.12 Counters

The counters tell you how many beverages have been prepared.

A total counter of all issued beverages is also displayed.

If a drink is removed, the number of that beverage is still counted in the total machine counter.

## Counters readings:

- press "counters" to confirm
- press 
   ✓ or 
   ✓ to scroll through the maintenance menu
  - ▶ The counters sub-menu consists of the following:
    - » day/total counters» reset day counters6.1.12a6.1.12c
    - » reset all counters 6.1.12g
    - » export counters <u>6.1.12k</u>
  - » machine counters 6.1.120

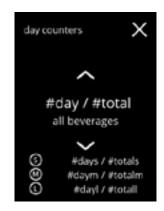

6.1.12

## Day counters:

- press "day/total counters" to confirm
- press **<** or **>** to scroll through the counters sub-menu

6.1.12a

Day counters per beverage and the total of all beverages:

6.1.12b

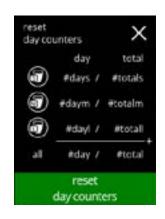

## Reset all day counters:

- press "reset all day counters" to select
- press 
  or 
  to scroll through the counters sub-menu

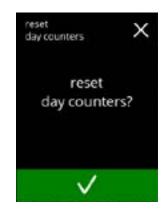

#### 6.1.12c

## Start reset:

• press reset day counters to confirm the reset off all day counters

#### 6.1.12d

## Confirmation screen:

- press **v** to confirm and continue the reset of all day counters
- press 

  to cancel and go to the previous screen

#### 6.1.12e

## Information screen

• screen <u>6.1.12c</u> is displayed after a few seconds

#### Total counters:

- press "total counters" to select
- press **≤** or **≥** to scroll through the counters sub-menu

6.1.12g

## Start reset:

• press reset all counters to confirm the reset off all day counters

6.1.12h

## Confirmation screen:

- press **v** to confirm and continue the reset of all counters
- press 

  to cancel and go to the previous screen

6.1.12i

## Information screen

• screen <u>6.1.12g</u> is displayed after a few seconds

6.1.12j

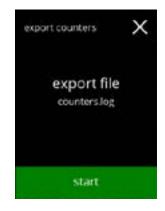

## **Export counters:**

- place a USB stick
- ▶ If there is no USB stick in the machine this option is greyed out.
- press "export counters" to confirm
- press **<** or **>** to scroll through the counters sub-menu

#### 6.1.12k

# Start export counters:

• press start to begin the export

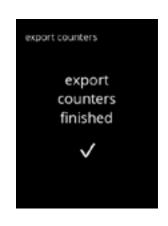

#### 6.1.121

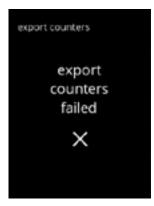

## Progress screen

- wait until the process is finished
- press on cancel to interrupt

#### 6.1.12m

## Information screens:

screen <u>6.1.12k</u> is displayed after a few seconds

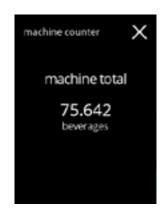

# Machine total counter:

- press "machine counter" to select
- press **<** or **>** to scroll through the counters sub-menu

6.1.12o

# Information screen:

• screen <u>6.1.120</u> is displayed after a few seconds

6.1.12p

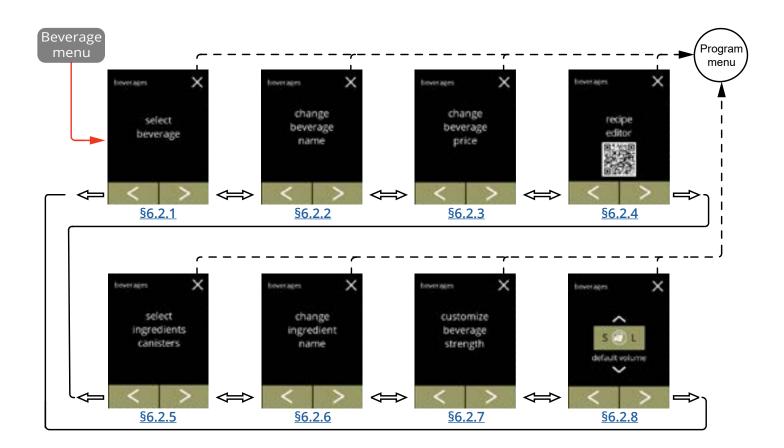

# 6.2 Beverages menu

The beverage menu contains all functions to adjust your beverages to your wishes. Select one of the available options

- press **<** or **>** to select the next option of the "beverage menu"
- press the "text area" to select the next level for that menu
- press 

  to go back to chapter 6. Programming menu on p.15.
  - ► The beverages, recipes and settings used are only examples.

# 6.2.1 Add beverage to screen

In this menu the available beverages (recipes) can be selected and linked to a beverage position.

It is possible to replace a beverage, the beverages cannot be dragged to another place. The open spaces where another beverage can be placed are marked with 3 dots.

▶ The beverages available will vary depending on the ingredients selected in the canisters

Place a beverage in the beverage selection screen:

- press "select beverage" to confirm
- press **I** or **I** to scroll through the beverage menu

6.2.1

# coffee cappuccino hot water

**Bolero 21** 

Available beverages in the beverage selection screen:

- press on a beverage to replace or a free place (marked as 3 dots) to add a beverage
- press exit to accept the current configuration and go to the previous screen

6.2.1a

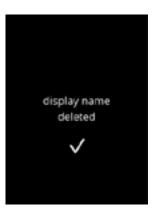

Replace or delete a beverage on the screen

- ▶ Delete is active as long as the beverage names are the same.
- ► Removing a beverage is not an option with the Bolero 11, as at least one drink must be available.
- press delete to remove the beverage (three dots now replace the beverage) or
- press save to replace the beverage

6.2.1b

# Information screens:

• screen <u>6.2.1</u> is displayed after a few seconds

6.2.1c

## **6.2.2** Change beverage name

In this menu the name of the beverage can be changed to a custom defined beverage name.

Change beverage name:

- press "change beverage name" to confirm
- press **<** or **>** to scroll through the beverage menu

6.2.2

Available beverages in the beverage selection screen:

- press on a beverage to change the name
- press exit to accept the current configuration and go to the previous screen

6.2.2a

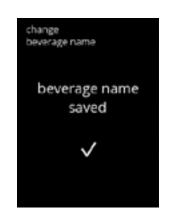

Enter the new custom beverage name:

- press the character between the 
   ■ to form the new beverage name
  - » press **ABC** for capitals
  - » press à..ç..ê for special characters
  - » press 123#\* for numbers
  - » press for a space
  - » press 🖾 to remove a previous input
- press 

  to confirm the new beverage name

6.2.2b

# Information screens:

• screen <u>6.2.2</u> is displayed after a few seconds

6.2.2c

## **6.2.3 Change beverage price**

In this menu the price per beverage can be set or modified.

Prices can be a token or a currency.

Price can be set per cup type (cup, mug, decanter).

- ► Coins to be used are specified in §6.3.13 Connected devices on p.94.
- ▶ The currency symbol and the currency separator are determined by the external payment system

Change beverage price:

- press "change beverage price" to confirm
  - » Bolero 11: go to <u>6.2.3b</u>
  - » Bolero 21: go to <u>6.2.3a</u>

6.2.3

#### **Bolero 21**

Select a beverage:

- press on the beverage to change the prices
- press exit to accept the current beverage prices and go to the previous screen

6.2.3a

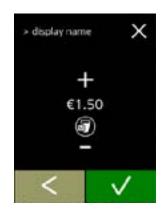

Adjust the 'volume small' price:

- press 
   • press or to change beverage volume price
- press 

  and go to the next screen

6.2.3b

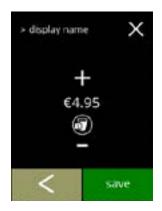

Adjust the 'volume medium' price:

- press **■** or **■** to change beverage volume price

6.2.3c

Adjust the 'volume large' price:

- press or to change beverage volume price
- press save to accept all and go to the next screen

6.2.3d

## Information screens:

 screen <u>6.2.3a</u> is displayed after a few seconds

6.2.3e

# Example screen tokens

A token is only available if the payment device is programmed correctly.

6.2.3f

## 6.2.4 Recipe editor

The following setting of the beverage recipes can be changed:

- volume
- strength
- mixer speed
- ▶ Only use ingredients that are suitable for vending machines and use the recommended dosage as indicated on the packaging.
- ▶ With the **recipe editor** a standard recipe can be changed (new recipes cannot be added).
- ► A changed recipe can be reset to the default values via the recipe test, see <u>6.2.4t on p.67.</u>
- ► The machine is unable to provide feedback (error) when the mixer motor is not running and when the canister motor is set to a very low speed.

Change the recipe of a beverage:

- press "recipe editor" to confirm
- press **I** or **I** to scroll through the beverage menu

6.2.4

#### Recipe selection:

- press ≥ to confirm

6.2.4a

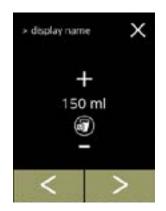

#### Volume (S):

- press 
   ■ or

6.2.4v

## 6.2.5 Select ingredient canisters

Default *instant* ingredients will be available in the machine:

regular coffee

- topping (only Bolero 21)
- espresso coffee
- cacao
- ▶ Only use ingredients that are suitable for vending machines.
- ▶ Names of ingredients can be changed in §6.2.6 on p.70.
- ▶ If an ingredient is changed or removed (Bolero 21), any beverage containing that ingredient will be removed from the screen.
- ▶ For unknown ingredients premixes are available. Rename the premixes in §6.2.6 on p.70.

Select an ingredient per canister:

- press "select ingredient canister" to confirm
  - » Bolero 11 go to next screen
  - » Bolero 21 go to <u>6.2.5b</u>
- press **<** or **>** to scroll through the beverage menu

premix

6.2.5

#### **Bolero 11**

Select an ingredient

- press or or to scroll through the available ingredients
- press save to confirm and go to the previous screen
  - ► Save is only active if something has changed.

6.2.5a

#### **Bolero 21 canister 1**

Select a ingredient:

- press on an ingredient to select and go to the next screen
  - ► Confirm **I** is only active if something has changed.

6.2.5b

#### **Bolero 21 canister 2**

Select a ingredient:

- press 
   ✓ to select the previous screen
- press or to scroll through the available ingredients
- press on an ingredient to select and go to the next screen
  - ► Confirm is only active if something has changed.

6.2.5c

#### **Bolero 21**

Control screen:

- ► This screen appears when **v** or **v** is pressed after the last canister.
- press 
   ✓ to select the previous screen
- press save to confirm

6.2.5d

#### Information screen:

► Only if a new ingredient is different to the original one go to §6.2.1 Add beverage to screen on p.56.

The beverages made with the previous ingredient are set to inactive and their names have been replaced by the 3 dots. That's why you have to combine new beverages with the buttons. When this action is completed, the machine will be operational again with the new ingredients.

6.2.5e

### 6.2.6 Change ingredient name

In this menu the name of the ingredient can be changed to a custom defined ingredient name.

Change ingredient name:

- press "change ingredient name" to confirm
  - » Bolero 11 go to the next screen
  - » Bolero 21 go to screen <u>6.2.6b</u>
- press **<** or **>** to scroll through the beverage menu

6.2.6

Ingredient canister:

press on the ingredient and go to screen <u>6.2.6c</u>

6.2.6a

Available ingredient canisters:

- press **☑** or **☑** to go to an ingredient canister
- press on the ingredient and go to the next screen

6.2.6b

Enter the new custom ingredient name:

- press **I** or **I** to scroll through the alphabet
- press the character between the 
   ■ to form the new ingredient name
  - » press ABC for capitals
  - » press à..ç..ê for special characters
  - » press 123#\* for numbers
  - » press **f**or a space
  - » press 🖾 to remove a previous input
- press **v** to confirm the new ingredient name

6.2.6c

#### Information screens:

 screen <u>6.2.6</u> is displayed after a few seconds

6.2.6d

#### 6.2.7 Cusomize beverage strength

In this menu, the standard strength on the beverage selection screen can be set.

The step size (%) of the strength can also be adjusted (0-20%).

This default setting applies to all beverages in the beverage selection screen.

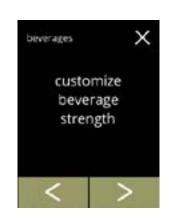

step size (<u>6.2.7a</u>)

1%	minimum	
10%	standard	
20%	maximum	

# standard strength setting (<u>6.2.7c</u>)

Setting (0.2.7C)			
• • •	90%		
• •	100%		
•••	110%		

► Setting the step size to 0% turns off the strength control and the button disappears from the beverage selection screen.

Set the beverage strength increase (%):

- press "customize beverage strength" to confirm
- press 

  or 

  to scroll through the beverage menu

6.2.7

Set the step size (%) of the beverage strength:

- press 
   • or 
   • to set the step size (%) of the strength button and go to the next screen
- press 

  or 
  to go to screen 6.2.7c to set the default strength
  - ► Setting the step size to 0% turns off the strength control and the button disappears from the beverage selection screen.

6.2.7a

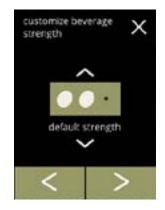

#### Confirm changes:

- press save to confirm
- ► Save is only active if something has changed.

6.2.7b

Change the default strength:

- press **<** or **≥** to scroll through the beverage strength menu

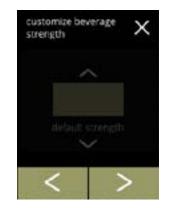

6.2.7c

### Confirm changes:

- press save to confirm
- ► Save is only active if something has changed.

6.2.7d

### No selectable strength button:

► Setting the step size to 0% (screen <u>6.2.7a</u>) turns off the strength control and the button disappears from the beverage selection screen.

### 6.2.8 Set default volume

In this menu, the standard volume of the beverage selection screen can be set. This default setting applies to all beverages in the beverage selection screen. The amount of ml per beverage can be adjusted in the recipe menu §6.2.4 on p.62.

Change the default volume:

- press or or to set the default volume
- press **<** or **>** to scroll through the beverage menu

6.2.8

## Confirm changes:

- press save to confirm
  - ► Save is only active if something has changed.

6.2.8a

### 6.3 Machine menu

You can programme the machine settings in the this menu. Select one of the available options:

- press 

  or 
  to select the next option of the "machine menu"
- press the "text area" to select the next level for that menu
- press 

  to go back to chapter 6. Programming menu on p.15

### 6.3.1 Year

Adjust the year.

## Change the date:

- press 
  ☐ or ☐ to set the year
  press ☐ or ☐ to scroll through the machine menu

6.3.1

# Confirm changes: • press save to confirm

- ► Save is only active if something has changed.

6.3.1a

### 6.3.2 Date

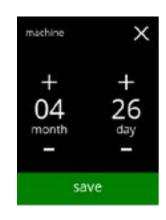

Adjust the day and month.

Change the month and day:

- press **■** or **■** to set the current the month and day
- press **I** or **I** to scroll through the machine menu

6.3.2

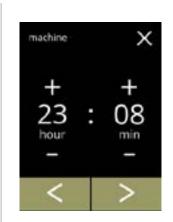

- Confirm changes:
   press save to confirm
  - ► Save is only active if something has changed.

6.3.2a

### 6.3.3 Time

Adjust the time.

## Change the time:

- press 
   • or 
   • to set the current hour and minutes
   press 
   • or 
   • to scroll through the machine menu

6.3.3

- Confirm changes:
   press save to confirm
  - ► Save is only active if something has changed.

6.3.3a

### 6.3.4 Language

The available languages are:

- English
- Spanish
- French
- Italian
- Dutch
- Norwegian

- Polish
- Portuguese
- Swedish
- Danish
- German

### Default: English

Change the language:

- press or or to scroll through the available languages
- press the language to set as the current language
- press **<** or **≥** to scroll through the machine menu

6.3.4

Confirm of change:

- press save to confirm
- ► Save is only active if something has changed.

6.3.4a

#### 6.3.5 Screensaver management

In this menu, you can set when the screen saver becomes active.

setting	screensaver	
default	15 min.	
minimum	1 min.	
maximum	90 min.	

The screensaver can be set to a custom defined screensaver.

You can always return to the default screensaver.

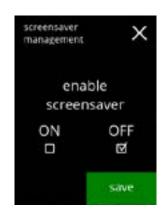

▶ The screensaver image does not need for a transparent background.

Change the screensaver:

- press "screensaver management" to confirm
- press 
   or 
   to scroll through the machine menu

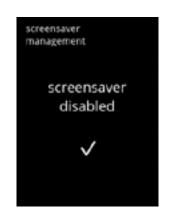

6.3.5

Activate/deactivate the screensaver option:

- press "ON" or "OFF" to set the screensaver:
  - » select OFF and save:
    go to the next screen
  - » select ON and ▼: go to screen <u>6.3.5c</u>
  - ► Save is only active if something has changed.

6.3.5a

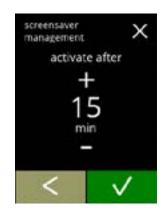

#### Information screen:

• screen <u>6.3.5</u> is displayed after a few seconds

6.3.5b

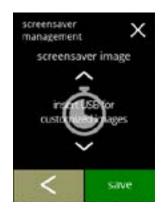

Set the time when the screensaver becomes active

- press **v** to confirm

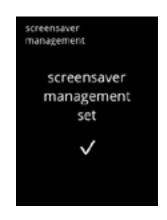

6.3.5c

Change the screensaver image:

- press ≥ to go to the next screen
- place a USB stick
- ▶ If there is no USB stick in the machine this option is greyed out.
- press ☐ or ☐ to select a custom image
- press save to go to the next screen

6.3.5d

Information screen:

• screen 6.3.5 is displayed after a few seconds

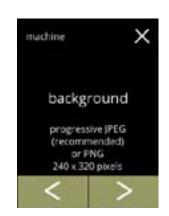

6.3.5e

### 6.3.6 Background

In this menu the background of the beverage selection screen can be set. The background can be set to a custom defined background, see specifications. The default background remains available in the GUI, so you can always return to the default background.

▶ We recommend **not** to use a light colour or white because of the readability.

Change the background:

- press "background" to confirm
- press 

  or 
  to scroll through the machine menu

6.3.6

Change the background image:

- press 

  to go to the next screen
- place a USB stick
  - ▶ If there is no USB stick in the machine this option is greyed out.
- press save to go to the next screen
  - ► Save is only active if something has changed.

6.3.6a

Information screen:

• screen <u>6.3.6</u> is displayed after a few seconds

6.3.6b

### 6.3.7 Cup detection (optional)

▶ If cup detection is not installed, this section and any other related screens will not be visible.

The cup sensors can always be switched off by software.

Activate/deactivate the cup detection option:

- press "ON" or "OFF" to set cup detection mode
- press **<** or **>** to scroll through the machine menu

6.3.7

### Confirm change:

- press save to confirm
- ► Save is only active if something has changed.

6.3.7a

## 6.3.8 Display brightness

The brightness of the display can be increased or decreased in steps of 5%.

setting	brightness		
default	90%		
minimum	20%		
maximum	100%		

Change the display brightness:

- press 
  ☐ or ☐ to select the brightness
  press ☐ or ☐ to scroll through the machine menu

6.3.8

Confirmation of change:
• press save to confirm

- ► Save is only active if something has changed.

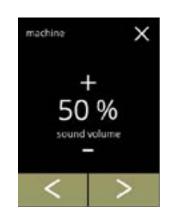

6.3.8a

### 6.3.9 Sound level feedback

The sound level of the feedback can be increased or decreased.

setting	sound level	
default	50%	
minimum	0% (OFF)	
maximum	100%	

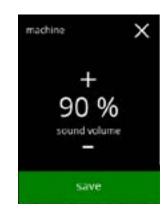

Sound level feedback:

- press 

  or 

  to set the sound level
- ▶ When the audio volume is increased or decreased, a beep is generated in that volume for verification.
- press **☑** or **☑** to scroll through the machine menu

6.3.9

Confirmation of change:
• press save to confirm

- ► Save is only active if something has changed.

6.3.9a

### 6.3.10 Boiler temperature

The temperature is set with an absolute temperature setting in degrees Celsius

setting		temperature		
	default	85°C		
	minimum	80°C		
	maximum	90°C		

Change the boiler temperature:

- press **■** or **■** to set the temperature
- press **I** or **I** to scroll through the machine menu

6.3.10

Confirmation of change:
• press save to confirm

- ► Save is only active if something has changed.

6.3.10a

### 6.3.11 Energy-saving mode (ECO)

After the set time, the Bolero will automatically go into sleep mode. The system becomes active when the screen is touched.

The time of the energy-saving mode can be set as defined in the table below.

1	2	3	4	5	6
Off	15 min.	30 min.	1 hour	2 hours	4 hours

#### Default: 2 hours

When energy-saving mode becomes active, the following actions are performed:

boiler heating disabled

backlight display set to low percentage.

fan disabled

► Energy control mode is dominant over screensaver mode

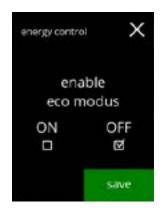

Change the energy-saving mode:

- press "eco modus" to confirm
- press 

  or 

  to scroll through the machine menu

6.3.11

Activate/deactivate the energy-saving mode option:

- press "ON" or "OFF" to set energy-saving mode
  - » select OFF and save or ▶:

go to the next screen

- » select ON and save: go to screen 6.3.11c
- ► Save is only active if something has changed.

6.3.11a

#### Information screen:

• screen <u>6.3.11</u> is displayed after a few seconds

6.3.11b

Set the time when the eco modus becomes active:

- press **■** or **■** to select the activation time
- press save to confirm and go to the next screen
- press d to go back to screen 6.3.11a

6.3.11c

### Information screen:

• screen <u>6.3.11</u> is displayed after a few seconds

6.3.11d

#### 6.3.12 Security settings

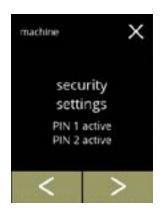

In this menu the PIN code settings can be defined.

There are 2 PIN codes:

- PIN 1 (general safeguard)
- PIN 2 (specific safeguard)

§8.2 on p.119 describes which PIN codes protect which options.

If a PIN code is entered to access the menu, it remains valid until the user leaves the menu again.

Change the security settings:

- press "security settings" to confirm
- press **<** or **>** to scroll through the machine menu
  - ▶ If a PIN code is active, it is indicated on this screen.

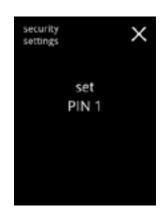

6.3.12

Change the security settings:

- press "PIN 1 for total access":
  - » PIN 1 already set: go to screen <u>6.3.12f</u>
  - » PIN 1 not yet set: go to the next screen

6.3.12a

Set PIN code:

press "Set PIN" and go to the next screen

6.3.12b

#### Enter the PIN code:

- press **I** or **I** to scroll through the numbers
- press on the number to select
- press **I** to delete a PIN number, see left corner
- press ▶ when the 4 digit PIN code is entered
  - ► When four numbers are entered the next screen is displayed to verify the PIN code.

6.3.12c

### Verify the PIN code:

- press **I** or **I** to scroll through the numbers
- press on the number to select
- press 🛮 to delete a PIN number, see left corner
- press 

   to verify the PIN code entered and go to the next screen
  - ▶ When the PIN code does **not** match, you will receive another attempt to enter the correct code.

6.3.12d

#### Information screen:

• screen <u>6.3.12a</u> is displayed after a few seconds

6.3.12e

#### Change PIN 1:

- press "change PIN 1" to confirm and go to the next screen
- press 
  or 
  to go to screen 6.3.12m

6.3.12f

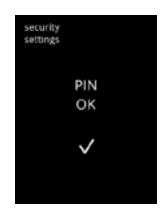

#### Enter the PIN code:

- press **I** or **I** to scroll through the numbers
- press on the number to select
- press **I** to delete a PIN number, see left corner
- press 

   to verify the PIN code entered and go to the next screen
  - ► When the PIN code does **not** match, you will receive another attempt to enter the correct code.

6.3.12g

#### Information screen:

• the next screen is displayed after a few seconds

6.3.12h

#### Enter the new PIN code:

- press **I** or **I** to scroll through the numbers
- press on the number to select
- press 🛮 to delete a PIN number, see left corner
- press ≥ when the 4 digit PIN code is entered
  - ► When four numbers are entered the next screen is displayed to verify the PIN code.

6.3.12i

#### Verify the new PIN code:

- press on the number to select
- press **I** to delete a PIN number, see left corner
- press 

   to verify the PIN code entered and go to the next screen
- ▶ When the PIN code does **not** match, you will receive another attempt to enter the correct code.

6.3.12j

#### Information screen:

• screen 6.3.12a is displayed after a few seconds

#### 6.3.12k

#### Delete PIN 1:

- press "delete PIN 1" to confirm and go to the next screen
- press ✓ or ≥ to go to screen <u>6.3.12f</u>

#### 6.3.121

#### Enter the PIN code:

- press **I** or **I** to scroll through the numbers
- press on the number to select
- press 🛮 to delete a PIN number, see left corner
- press **v** to verify the PIN code entered and go to the next screen
  - ► When the PIN code does **not** match, you will receive another attempt to enter the correct code.

#### 6.3.12m

#### Information screen:

• the next screen is displayed after a few seconds

6.3.12n

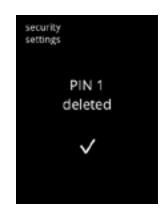

### Confirmation screen:

- press **v** to confirm and go to the next screen

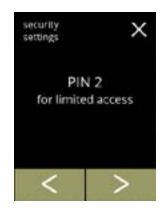

6.3.120

#### Information screen:

• screen <u>6.3.12a</u> is displayed after seconds

6.3.12p

### Change the security settings:

- press "PIN 2 for limited access" to select:
- ► the screens that follow are the same as PIN 1 (only PIN 1 is replaced by PIN 2 in the screens <u>6.3.12b</u> to <u>6.3.12p</u>)
- press ✓ or ≥ to go to screen 6.3.12a for PIN 1

6.3.12q

#### 6.3.13 Connected devices

In this menu settings of external devices connected to the machine can be set or modified. In case of a connected payment module, the possibility to cancel a beverage can be disabled. Devices that can be connected:

payment devices (with and without coins)

Select or configure the connected devices:

- press "connected devices" to confirm
- - ► If no external device is connected to the machine, the text on this screen will remain greyed out.

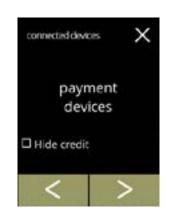

6.3.13

### Payment device:

- ► The checkbox gives the possibility to decide whether a paid beverage could be cancelled or not (the money is not returned).
- press ≥ to confirm

6.3.13a

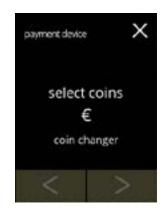

#### Payment device:

- ► The checkbox gives the possibility to decide whether to hide the credits or not.
- press ≥ to confirm
- ► The "hide credit" option is particularly useful for payment devices that allocate a curtain credit amount to ensure there is enough credit to pay for the beverage (such as a selfservice petrol station).

6.3.13b

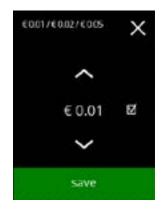

Select/configure the payment device:

- press "select coins" to confirm
- press **<** or **>** to scroll for more connected payment devices
  - ► The availability of the navigation buttons depends on the number of connected devices.
  - ▶ Up to 2 payment devices can be connected.

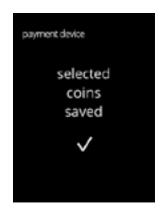

6.3.13c

Select which coins can be used:

- press or or to scroll through the available coins
- fill in the checkbox to select the coin
- press save to confirm and go to the next screen
  - ► Save is only active if something has changed.

6.3.13d

### Information screens:

screen <u>6.3.13</u> is displayed after a few seconds

### **6.3.14 Reset to factory settings**

A factory reset reverts the machine to how it was manufactured.

### Exceptions are:

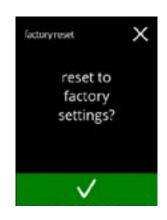

- firmware
- machine counter (only the day and beverage counters are reset)
- descale counter
- water filter
- firmware history

### Reset to factory settings:

- press "factory settings" to confirm
- press ✓ or ≥ to scroll through the machine menu

6.3.14

#### Confirmation screen:

- ► First save the customized data, see §6.4.5 Export machine settings on p.104.
- press 

  to confirm

6.3.14a

### Progress screen

• wait until the process is finished

6.3.14b

### Information screen:

• the next screen is displayed after a few seconds

6.3.14c

Information screen:
• the machine starts automatically (this takes a while)

6.3.14d

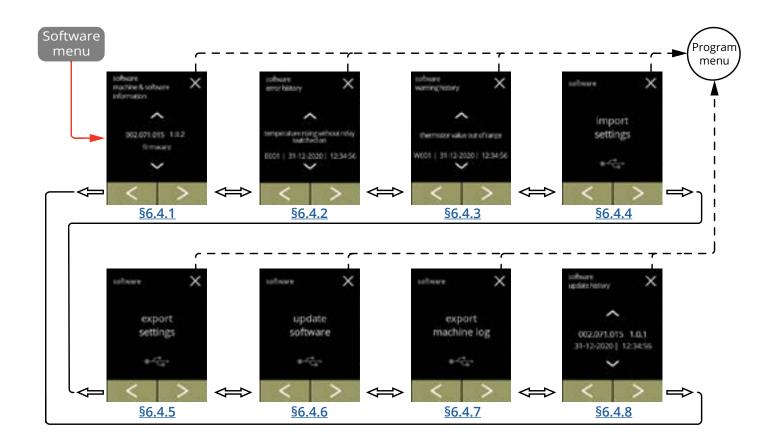

#### 6.4 Software menu

All firmware related items can be read, set or changed in the software menu. Select one of the available options:

- press ≤ or ≥ to select the next option of the "software menu"
- press the "text area" to select the next level for that menu
- press 

  to go back to chapter 6. Programming menu on p.15

### 6.4.1 Machine and software information

This menu shows information that identifies the machine.

software			hardware (version,	other	
HMI (version)	I/O (version)	external (version, article number)	article number)		
• bootloader	• bootloader	• Interface board (if present)	HMI board	• IP information (IP address, Mac address, Gateway and DNS) (if connected)	
• application » API » GUI	application	• other devices (if present)	• I/O board	• serial number machine	
• touchscreen controller			• interface print (if present)		
• Bluetooth/ Wi-Fi			• other devices (if present)		

### Information screens:

- press or or to retrieve the other machine & software information
- press **<** or **>** to scroll through the software menu

6.4.1

### 6.4.2 Error log

In this menu the error history is shown.

The following items are displayed:

- error code
- error message
- date and time

The error log can contain up to 50 error messages, the last error code generated is displayed first.

► An overview of the error messages can be found in §7.2 on p.114.

Information screens:

- press or oretrieve the error history
- press **<** or **≥** to scroll through the software menu
  - ► The last error code generated is shown first.

6.4.2

### 6.4.3 Warning log

In this menu the warning history is shown.

The following items are displayed:

- warning code
- warning message
- date and time

The warning log can contain up to 50 warning messages, the last warning code generated is displayed first.

► An overview of the warning messages can be found in §7.1 on p.112.

Information screens:

- press or oretrieve the warning history
- press **<** or **≥** to scroll through the software menu
- ► The last warning code generated is shown first.

6.4.3

### 6.4.4 Import machine settings

In this menu the settings of another machine (or from the Bravilor factory) can be imported. With settings the following is meant:

- recipes
- machine configuration
- security levels
- ▶ Only if the identities of both machines are the same the settings can be transferred.

Import machine settings:

- place a USB stick
  - ▶ If there is no USB stick in the machine this option is greyed out.
- press "import settings" to confirm
- press 
   or 
   to scroll through the software menu

6.4.4

Import the settings on the machine:

- press start to begin the import
  - ▶ It is only possible to import a file with the same identification:

EXP21 : identical model

2149 : identical boiler wattage0 : presence manual tap (0/1)20220108 : date is variable (yyyymmdd)

bbp : identical file extension

6.4.4a

#### Confirmation screen:

- ▶ Be aware that your current settings will be overwritten.
- press 
   ✓ to go to the previous screen

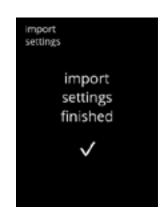

6.4.4b

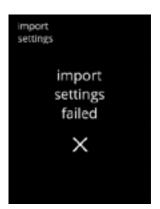

Progress screen
• wait until the process is finished

6.4.4c

### information screen:

• screen <u>6.4.4</u> is displayed after a few seconds

6.4.4d

### 6.4.5 Export machine settings

In this menu the machine settings are exported to a file. With settings the following is meant:

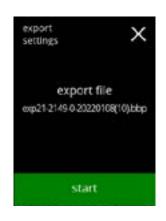

- recipes
- machine configuration
- security levels
- identity (used to check if the new machine has the same identity)
  - ► Keep in mind that the security levels of the machine are also copied.

Export machine settings:

- place a USB stick
  - ► If there is no USB stick in the machine the export button is greyed out.
- press "export settings" to confirm
- press **<** or **>** to scroll through the software menu

6.4.5

Export the settings of the current machine:

- press start to begin the export
  - ► The name of the export file is structured as follows:

EXP21 : model

2149 : boiler wattage

0 : presence manual tap (0/1) 20220108 : date is variable (yyyymmdd)

bbp : file extension

6.4.5a

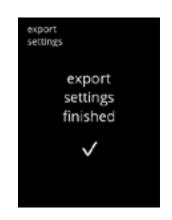

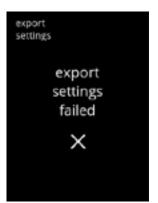

Progress screen

- wait for the process to finish
- press on cancel to interrupt

6.4.5b

# Information screens:

• screen <u>6.4.5</u> is displayed after a few seconds

6.4.5c

### 6.4.6 Update software

In this menu the software can be updated.

The software (package) can be selected from the USB stick and after selection the package information will be shown.

▶ The software can only be updated, a downgrade is not possible.

Update the machine software:

- place a USB stick
  - ▶ If there is no USB stick in the machine this option is greyed out.
- press "update software" to confirm
- press **I** or **I** to scroll through the software menu

6.4.6

Select the file to update the software:

- press 
   or 
   to select a file
- press start to begin the update

6.4.6a

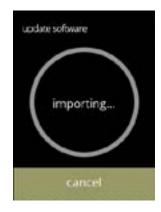

#### Confirmation screen:

- ▶ Be aware that your current firmware will be overwritten.
- press 
   ✓ to go to the previous screen

6.4.6b

### Progress screen

- wait until the process is finished
- press on cancel to interrupt
- ► If the file cannot be imported (earlier version or wrong format) the screen is aborted and screen <u>6.4.6f</u> appears.

6.4.6c

#### Information screen:

• the next screen is displayed after a few seconds

6.4.6d

#### Information screen:

- the machine starts automatically (this takes a while)
- the next screen is displayed automatically

6.4.6e

#### Information screen:

 the beverage selection screen is displayed when the software is installed

6.4.6f

## 6.4.7 Export machine log

In this menu the machine log is exported to a file.

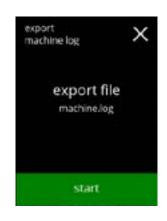

The report consists of dispense counters (free and paid), warning and error messages.

Export machine log:

- place a USB stick
  - ▶ If there is no USB stick in the machine this option is greyed out.
- press "export machine log" to confirm
- press **<** or **>** to scroll through the software menu

6.4.7

Export the log file of the machine:

• press start to begin the export

6.4.7a

Progress screen

- wait until the process is finished
- press on cancel to interrupt

6.4.7b

# Information screens:

• screen <u>6.4.7</u> is displayed after a few seconds

6.4.7c

## 6.4.8 Software update history

In this menu software history is shown.

The following software history are shown with item number, version, date and time:

- product software (HMI)
- I/O board software
- touch software
- WI-Fi/Bluetooth
- bus devices (if they are connected)

The update log can contain up to 50 items, the last update is shown first.

Information screens:

6.4.8

## 6.5 Online info

Online information can be approached via the QR code shown on the screen. Select one of the available options

- press 

  or 
  to select the next option of the "machine menu"
- press the "text area" to select the next level for that menu
- press 

  to go back to chapter 6. Programming menu on p.15

### Online information:

- press "online info" to confirm
- press **<** or **>** to scroll through the machine menu

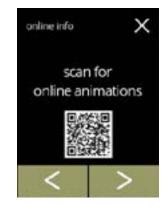

6.5.1

#### Online manuals:

- press **☑** or **☑** to scroll through the available QR codes
- scan the QR code to get the latest online manual(s)

6.5.1a

#### Online animations:

- press **I** or **D** to scroll through the available QR codes
- scan the QR code to get the latest online animation(s)

6.5.1b

# 7. Messages and errors

# 7.1 Warning messages

Warnings are used to inform you of a state which can prevent the Bolero from working correctly. In general warnings are shown after selecting a beverage.

- ▶ The messages/warnings are displayed for 30 seconds then return to the home screen.
  - » a message (Mxxx) is a positive confirmation of a user action.
  - » a warning (Wxxx) indicates a problem or potentially harmful condition

Example display for a warning. These notifications are stored in a log file (§6.4.3 on p.101).

7.1a

code	description	action		
W001	temperature sensor out of range	• no action required, disappears after a few seconds, becomes after 3 incidents E002		
W002	temperature too high	• no action required, disappears after a few seconds		
W003	temperature not rising while relay engaged	• no action required, disappears after a few seconds, becomes E004 after 3 incidents within certain time		
W004	canister motor not detected	reset the message on the screen		
		» if the warning persists, contact your dealer		
W005	not used			
W006	mixing systems must be rinsed	reset the message on the screen		
		» rinse the mixing system, see §6.1.1 on p.17.		
W007	machine must be descaled	reset the message on the screen		
	soon	» schedule the descaling procedure soon		
W008	machine must be descaled now	<ul> <li>reset the message on the screen (the warning will pop-up after every dispensed beverage)</li> </ul>		
		» descale the machine, see §6.1.2 on p.19)		

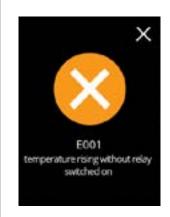

code	description	action	
W009	water filter must be	reset the message on the screen	
	changed soon	» schedule water filter replacement soon	
W010	water filter must be changed now	<ul> <li>reset the message on the screen (the warning will pop-up after every dispensed beverage)</li> </ul>	
		» replace the water filter and confirm in §6.1.3 Water filter management on p.27	
M011	payment device connection successful	no action required, disappears after a few second	
W012	payment device connection	• no action required, disappears after a few seconds	
	failed	» check the connections and restart the payment device	
		» if the error persists, contact your dealer	
W013 - W019	not used		
W020	contact your dealer for preventive maintenance	<ul> <li>reset the message on the screen, the message will recur several times after which it becomes E026</li> </ul>	

### 7.2 Errors

Error messages appear when an error is detected by the machines operating system. When the error is active and is cancelled by the user, the machine goes out of safe mode and tries to recover. If the error is not cleared by retrying, the error reappears.

▶ If the error message returned after the appropriate action, please contact your dealer.

Example display for errors. These errors are stored in a log file (§6.4.2 on p.100).

7.2a

code	description	action
E001	temperature rise while	reset the message on the screen
	relay disengaged	» if the error persists, contact your dealer
E002	temperature sensor out of	reset the message on the screen
	range	» if the error persists, contact your dealer
E003	magnetic valve	reset the message on the screen
	unexpectedly opened	» if the error persists, contact your dealer
E004	temperature not rising	reset the message on the screen
	while relay engaged	» if the error persists, contact your dealer
E005	not available	
E006	water supply failure	<ul> <li>reset the message on the screen, if the error repeats verify the following:</li> </ul>
		» check that the water tap is open
		» check that the water supply hose is not kinked
		» check whether water comes out of the water tap
		» if the error persists, contact your dealer

E007   not used	code	description	action
Berror	E007	not used

		» check whether the payment device is correctly connected
E019 - E025	not used	
E026	contact your dealer for necessary maintenance	• reset the message on the screen, contact your dealer for required maintenance (the error message will occur more frequently than the previous warning message W020)

# 7.3 Other problems

In addition to the messages and errors present in the machine, a number of other problems may occur; these problems are described below.

<b>Problem description</b>	Possible cause	Check the following		
drink to weak	almost out of powder in ingredient canister	Ingredient container		
	strength not correct	<ul> <li>adjust drink settings in the recipe editor</li> <li>» if the error persists, contact your dealer</li> </ul>		
drink to strong	strength not correct	<ul> <li>adjust drink settings in the recipe editor</li> <li>» if the error persists, contact your dealer</li> </ul>		
no water dosed	hose blocked	• contact your dealer		
mixing unit clogs up	mixing unit not cleaned	clean the mixing unit		
	to much powder	<ul> <li>check the advise dosing of the packaging of the powder, use a scale to weight the amount of powder used</li> </ul>		
	powder used which is not applicable for vending machines	• use powder that is applicable for vending machines		
	pump calibration not correct	<ul> <li>calibrate the pump (availability depends on PIN setting)</li> </ul>		
		• contact your dealer		
	mixer defect or missing	check the mixer		
	mixing unit damaged	check the mixing unit		
	fan rotor does not turn	<ul> <li>clean the fan rotor and housing or remove any blockage</li> <li>» if the error persists, contact your dealer</li> </ul>		
mixing unit overflows water	pump calibration not correct	<ul> <li>calibrate the pump (availability depends on PIN setting)</li> </ul>		
		• contact your dealer		
	mixing bowl clogged up	<ul> <li>mixing bowl, see previous descriped problem</li> <li>» if the error persists, contact your dealer</li> </ul>		
mixing unit leaks	mixing bowl seal leaks	clean the complete mixing unit     » if the error persists, contact your dealer		

Problem description	Possible cause	Check the following		
no faom on the drink	mixer speed not correct	<ul> <li>adjust the mixer speed (availability depends on PIN setting)</li> <li>» if the error persists, contact your dealer</li> </ul>		
	type of instant ingredient	try a different instant ingredient		
to much foam on the drink	mixer speed not correct	<ul> <li>adjust the mixer speed (availability depends on PIN setting)</li> <li>» if the error persists, contact your dealer</li> </ul>		
not enough water dosed	scale in the water system	• descale the machine » if the error persists, contact your dealer		
fan rotor does not run	fan not cleaned	<ul> <li>clean the fan rotor and housing or remove any blockage</li> <li>if the error persists, contact your dealer</li> </ul>		
water dispensed in wrong outlet	scale in water selector	• descale the machine » if the error persists, contact your dealer		
machine doesn't turn	switch not turned on	• turn on the switch on the backside		
on	no power	• check the power supply » if the error persists, contact your dealer		
message safety circuit interupted in the	door and lid not closed	first close the lid and then the door		
display	service key not placed	• place the service key » If the error persists, contact your dealer		
touch screen display sometimes not	touch screen filthy	• turn off the machine and clean the touch screen with a damp cloth		
responsive		<ul><li>▶ Do not use agressive detergents.</li><li>» if the error persists, contact your dealer</li></ul>		

# 8. Appendix

## 8.1 Filter information and water hardness

	very soft	soft	average	moderate	hard
°dH	0 - 4	4 - 8	8 - 12	12 - 18	18 - 30
°fH/°TH	0 - 7	7 - 15	15 - 22	22 - 32	32 - 54
°e / Clark	0 - 5	5 - 10	10 - 15	15 - 23	23 - 38
mmol/l	0 - 0.72	0,72 - 1.43	1.43 - 2.15	2.15 - 3.22	3.22 - 5.37
descale	2000 l.	1500 l.	1000 l.	500 l.	250 l.

- ▶ The capacity of a water filter depends on the type and local hardness of the water.
- ► See  $\S6.1.6$  on p.33 to set the water hardness.

# 8.2 Door switch functionality

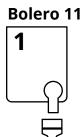

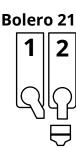

When the door opens the safety switch is activated and a message is shown.

The following hardware will become inactive:

- all mixers
- all canisters
- boiler
- appliances that are connected to the 24 V safety of the bus system
  - When the door switch is activated during dosing of a beverage, the dosing is cancelled and the mixer cup is cleaned by a post flush.

# 8.3 Basic machine configurations

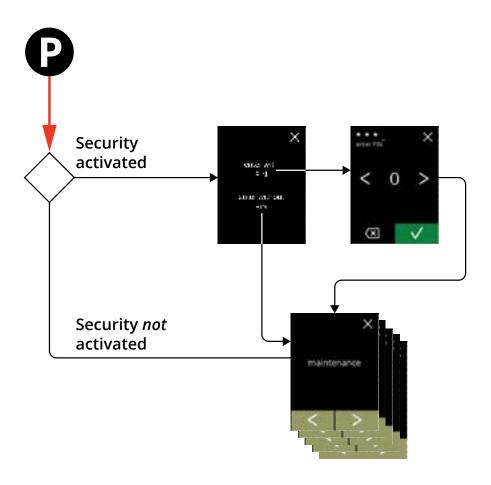

# 8.4 PIN code security settings

The table below lists the available menu options associated with the PIN codes. When a PIN code is *not* set, all menu items are available and the table must be ignored.

Section	Menu name	PIN 1	PIN 2	without PIN
6.	Programming menu	✓	✓	✓
6.1	Maintenance menu	✓	✓	✓
6.1.1	Rinse the mixing system	✓	✓	✓
6.1.2	Descale	✓	✓	✓
6.1.3	Water filter management	✓	✓	✓
6.1.4	Hot-key rinsing function	✓	✓	×
6.1.5	Cleaning management	✓	✓	×
6.1.6	Descale management	✓	✓	×
6.1.7	Canister calibration	✓	✓	×
6.1.8	Pump calibration	✓	×	×
6.1.9	Input test	✓	×	×
6.1.10	Output test	✓	×	×
6.1.11	Cleaning instructions	✓	✓	✓
6.1.12	Counters	✓	✓	✓
	reset day counters	✓	✓	✓
	reset all counters	✓	×	×

Section	Menu name	PIN 1	PIN 2	without PIN
6.2	Beverage menu	✓	✓	×
6.2.1	Add beverage to screen	✓	✓	×
6.2.2	Change beverage name	✓	✓	×
6.2.3	Change beverage price	✓	✓	×
6.2.4	Recipe editor	<b>✓</b>	✓	×
6.2.5	Select ingredients canisters	✓	✓	×
6.2.6	Change ingredient name	✓	✓	×
6.2.7	Cusomize beverage strength	✓	✓	×
6.2.8	Set default volume	✓	✓	×
6.3	Machine menu	✓	✓	×
6.3.1	Year	✓	✓	×
6.3.2	Date	✓	✓	×
6.3.3	Time	✓	✓	×

6.4.2	Error log	✓	✓	×
6.4.3	Warning log	✓	✓	×
6.4.4	Import machine settings	✓	×	×
6.4.5	Export machine settings	✓	×	×
6.4.6	Update software	✓	×	×
6.4.7	Export machine log	✓	×	×
6.4.8	Software update history	<b>✓</b>	×	×
6.5	Online info	✓	✓	✓

<sup>►</sup> Menu items secured by PIN codes will be greyed out, see §6.3.12 on p.89 to set the PIN codes.

# **8.5 Special functions**

By using a "secret key combination" special features can be activated.

### 8.5.1 Cancel beverage on/off

See §6.3.13 Connected devices on p.94

► Reason of this feature is that the customer can choose if the beverage can be cancelled or not when a payment system is connected.

### 8.5.2 Quick rinse

By pressing the S M L on the beverage selection screen for 5 seconds the quick rinse is immediately activated with 90 ml (hot water).

► To set this function, see §6.1.4 Hot-key rinsing function on p.30
