Bringing superior quality

CAFE-STYLE BEVERAGES
DIRECTLY TO THE WORKPLACE

The Sego delivers the ultimate coffee experience, brewing luxurious drinks with ease. Designed for versatility, it fits perfectly in waiting rooms, showrooms, and mid-size businesses, offering a seamless coffee solution. By using fresh beans, the Sego ensures a rich, flavourful cup every time.

From espresso to cappuccino and everything in between, the Sego caters to every preference, elevating your workplace with premium coffee that enhances productivity, improves customer satisfaction, and turns every break into a moment of enjoyment.

Equipped with a precision grinder, patented Circo brewer, and customisable settings, the Sego consistently delivers barista-quality coffee at the touch of a button. Its compact, yet powerful design, integrates effortlessly into any environment, while easy maintenance and durable components guarantee long-lasting performance.

The Sego offers the ultimate coffee experience

FOR YOUR EMPLOYEES AND CUSTOMERS

With its compact design and easy operation, the Sego keeps workplaces running smoothly while delivering consistently great coffee throughout the day. Its fully automated system ensures employees and visitors to enjoy barista-quality beverages at the touch of a button. No need for extensive training or complicated maintenance.

Easy to install

With simple on-screen guided instructions.

Easy to use

Intuitive touchscreen with up to 30 beverages.

Maintenance friendly

Easy to clean components. Clear on-screen instructions.

The ideal solution for limited spaces

The Sego is ideal for a variety of locations, including offices, showrooms, waiting areas and self-service environments; its small footprint makes it a perfect fit for spaces with limited room while still delivering high-quality coffee.

SEGO

Features & benefits

Small footprint, big impact

Thanks to its compact design, this machine is a perfect fit for locations with limited counter space. Ideal for offices, kiosks, lounges, or any place where space is at a premium.

- ↔ 315 mm Width
- ↑↓ 590 mm Height
- ↗ 450 mm Depth

Pure bean, pure taste

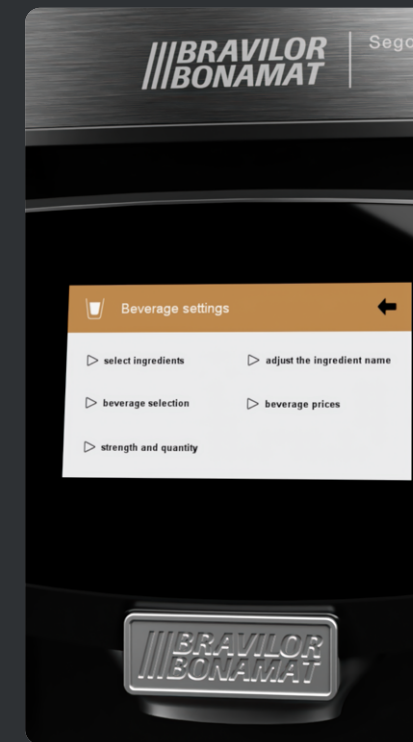

Whole bean brewing ensures the richest and freshest cup of coffee, every time. Freshly ground to awaken your senses with every brew.

Convenience upgrade

Enhance user experience by increasing the tap height and expanding capacity. Equip your Sego with a raiser set to accommodate larger cups and benefit from an enlarged waste bin and drip tray.

Personalise your coffee

Create your perfect cup of coffee by easily adjusting settings such as cup size and contact time. Tailored to your taste.

Extensive drink variety

From daily go-to favourites to indulgent café style creations, each served at the touch of a button. Whether it's a classic Americano or specialty drinks, enjoy a choice of up to 30 different beverages.

CIRCO brewer

The innovative CIRCO brewer leverages intelligent design and advanced technology to redefine the coffee brewing experience. This unique rotational brewer is the answer to the growing demand for bean-to-cup vending machines. While its shape is unique and it is compact in size, it has a capacity of 6 to 18 grams of ground coffee.

The ingenious pump control of the brewer guarantees a constant extraction resulting in a delicious crema layer. Time and time again.

SEGO L WITH MILK FRIDGE

Milk foam as light as air

Offer your customers the perfect cappuccino or latte macchiato by choosing a Sego L. The combination of fresh cold milk, steam and air creates milk foam of superb quality.

Hygiene

The automatic rinsing program of the Sego L milk fridge ensures that the tubes and frother are cleaned frequently.

4 litre container

The Sego L milk fridge for the Sego 11L/12L chills and keeps milk at the right temperature.

SEGO Accessories

Raiser set

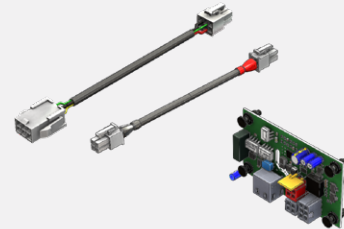

Takes just minutes to install and retro-fits with all Segos.

- The pedestal raises the standard Sego 12 by 60 mm. This brings the total machine height to 650 mm.
- The larger waste bin can hold about 50 waste coffee pucks.
- The larger drip tray has room for more rinsing water, which means it needs emptying less frequently.
- The lower drip tray grid raises the tap height from 105 mm to 135 mm.

Drainage Kit

Connect drip tray to a drainage outlet (with raiser set only).

MDB Interface

For payment systems and (third-party) connectivity solutions.
